This is a summary of how our school delivers music education to all our students across three areas – curriculum music, co-curricular provision and musical experiences – and what changes we are planning in future years. This information is to help students and parents or carers understand what our school offers and who we work with to support our students' music education.

## Part A: Curriculum music

This is about what we teach in lesson time, how much time is spent teaching music and any music qualifications or awards that students can achieve.

# Our Music Learning Journey

## **BECKET KEYS MUSIC**

### **Key Stage 3**

#### **Intent (based on the National Curriculum)**

Students should perform, listen to and evaluate music across a range of historical periods, genres, styles and traditions including the works of great composers and musicians. They should learn to sing and to use their voices, to create and compose music on their own and with others, can learn a musical instrument and to use technology appropriately. Students should understand and explore how music is created, produced and communicated including through the inter-related dimensions: pitch, dynamics, tempo, timbre, texture, structure and appropriate musical notations.

#### **Implementation**

Students will be taught to:

- play and perform confidently in a range of solo and ensemble contexts using their voice, playing instruments musically, fluently and with accuracy and expression
- improvise and compose; and extend and develop musical ideas by drawing on a range of musical structures, styles, genres and traditions
- use staff and other relevant notations appropriately and accurately in a range of musical styles, genres and traditions
- identify and use the inter-related dimensions of music expressively and with increasing sophistication, including use of tonalities, different types of scales and other musical devices
- listen with increasing discrimination to a wide range of music from great composers and musicians
- develop a deepening understanding of the music that they perform and to which they listen, and its history

- Understanding

#### **Links to Key Stage 2**

We note that there are huge differences in students' Key Stage 2 curriculum diet. However, students at Key Stage 2 are generally taught to use their voices and play musically. The Key Stage 3 RET Music curriculum extends these skills to encompass performance skills in voice and instruments by developing and developing technical and performance skills and in an understanding of the music. Pitch, duration, dynamics, tempo, timbre, texture, structure and appropriate musical notations are considered at Key Stage 2. The RET Key Stage 3 curriculum builds on this by extending creative composing and more in depth, regular creating and composing. Our aim is to develop a culture and foster a love for music.

#### **Relationship to the wider Key Stage 3 Curriculum**

There are extensive links with Drama, English and History departments. Our school engages in cross-curricular projects to contextualise music; to present and perform to audiences. There are links to geography and technology as students create instruments and study music and geographical movement from other cultures at Key Stage 3. There are links to dance in delivering performance, to art in terms of the similarity of vocabulary and to ICT as students begin to use tailor made computer programs to create music.

#### **Links to KS4**

All the skills practised at KS3 are represented, assessed and developed in Key Stage 4. KS3 is a natural progression. We offer the GCSE pathway for students and those that do not choose

music as an option at KS4, can continue with instrumental lessons and are included in all our ensembles.

We partner with Greater Essex Music Hub and [Essex Music Service](#) to support musical opportunities for our students including hosting the Brentwood Community Music School on a Thursday evening.

## Part B: Co-curricular music

This is about opportunities for students to sing and play music, outside of lesson time, including choirs, ensembles and bands, and how students can make progress in music beyond the core curriculum.
