- Basketball world
- News 'round the world

The NBA was founded in 1946

Basketball World

The world of basketball, a world from the unknown. No game is as intense, passionate and vibrant.

You can only love basketball if you feel the passion of it, know the players, and stick to your team.

Our discussion continues with the question everybody in the NBA wants to come to a conclusion, who is the best NBA player of all time? What can we look forward to in the upcoming season and also, how did Michael Jordan change basketball forever?

Becket Keys triumph over BCHS

After a disappointing 2012-13 season, where Becket Keys only won one basketball match, the team can back strong and fighting, winning their first friendly match 29-13.

After improving drastically in training, the team's lay-ups have become the best way to score in matches, as demonstrated in the game.

The first quarter showed the team's power, preventing Brentwood County High from scoring a single point while building an encouraging lead. The team was pulling very well as a unit scoring easy points through great passes and outstanding determination.

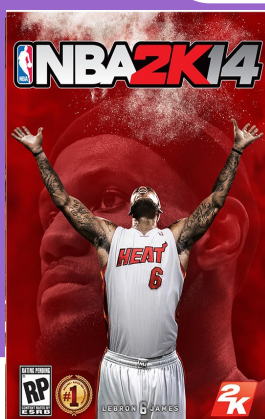

With Tom Walker and Ryan Gamble subbed off, defensively, Becket Keys started to shoot dreadful shots and playing defence that led to the opposition scoring. It was a wake up call for the team as they bounced back in the third quarter to build an incredible lead, only conceding one basket. Tom was playing great defence and helping to make the offensive run smoothly. Ryan was using his ball handling to score many points ending the game with 16 points,

In the fourth quarter, once again, the defense conceded many points. Despite this, Oscar Wariner put in a great effort in pushing the ball up-court and creating many chances.

Becket Keys put in a great effort to get the win ahead.

"NBA 2k towering over sports games"

-Games Radar

NBA 2k, the next generation

While most people here, in the UK, are raving about the spectacular FIFA 14 (see games page for more), the new NBA 2K game has been released on October 4th. While many people weren't fortunate enough to go to the live London event handing out free copies of the game, it is still available in the UK. With many new features making you able to play more with your 'player', this game is set to rocket to the top of the game leaderboards.

Who is the best NBA player of all time?

Still undecided after many years of discussion, the basketball world is still awaiting for someone to be able to prove, who is the greatest player of all time.

Immediately, names such as LeBron James and Kobe Bryant pop into our minds, but what about the older generation? Jerry West, considered the greatest shooter of all time, or Hakeem Olajuwon, the feared Center who led the Houston Rockets to many titles. But we must always remember Michael Jordan, who changed basketball forever.

Michael Jordan will always be the top dog in basketball, despite other legends dominating the game in different eras, Jordan's era will always live in the memories of fans.

"I can accept failure, but something I can't accept is not trying"

-Michael Jordan

France, de best in Europe

Despite Spain being ranked best in Europe in the FIBA ranks, France won the Eurobasket, beating Lithuania 80-66 with a great performance from the NBA player, Tony Parker.

France have had the hardest tournament out of the two teams in the final. France had to beat Spain, the Eurobasket favourites, in the semi-final to even reach the final.

Tony Parker's fellow teammate in the NBA, Diaw, scored 17 points to lead his country to victory over Lithuania. Tony Parker had a quiet scoring night, only having 12 points to his name, but put in a great effort of assisting his teammates.

If France are champions of Europe, could they beat America and win the World Cup?

1.6.2/1.6.4 UPDATE

The long awaited Minecraft 1.6.2 was released on July 18th 2013 and has added some interesting features to the game. The major feature of this is that there are now HORSES in the game. With this, you can have horse armour to put on your horse, and hay bales are now a feature. Also, baby zombies and baby skeletons now spawn in the wild, but very rarely. Adding to this, villagers can now trade potatoes and carrots with you. For more info about updates on Minecraft, head over to the Minecraft Wiki page about Updates <http://minecraft.gamepedia.com/Updates>

Everything you need to know about The Hunger Games

-

In November the newest Hunger Games movie “*Catching Fire*” will be coming out. On the 22nd November the world will be getting ready to watch 12-18 year olds fight to the death. Unlike the normal Hunger Games this year it’s a Quarter Quell. A Quarter Quell is when instead of a girl and a boy who are the age of twelve through to eighteen fight in the arena, there’s a twist. A Quarter Quell happens every 25 years and this year it’s the third. On the first, everyone in the district had to vote who they wanted to enter the arena and fight to the death. On the second, twice the number of people got chosen. This was that the year district 12’s second winner won. This year it’s a devastating result for Katniss Everdeen (Jennifer Lawrence) because just after surviving with her district partner Peeta Mellark (Josh Hutcherson) she is forced to enter again...

Xbox One Vs PS4

The next generation of gaming consoles are set to be released with amazing new features. Features range from voice sensors to better graphics, the Xbox One and the PS4 are set to reach many new households.

Xbox One

The new and exciting Xbox one has many more features than the original Xbox 360, but the price tag is much bigger at a price of £500. It will probably attract fewer buyers whereas the ps4 has a much smaller price which may attract more general public buyers. The new features are; Kinect built in, a totally free copy of Fifa 14 for every European buyer, it also has a new controller and a faster system.

PS4

The PS4 is a more powerful console and it has a smaller price than the Xbox one at £349 which may attract some more buyers and better ratings for Sony. It will have a movie camera and this console will also offer a free copy of Fifa 14 for every European buyer. The console offers a new controller and console design.

What to get!!!

Coming to a conclusion, we believe that the XBOX One is the best of the next gen consoles, despite it costing more. With extra features and a stunning new style, it is set to make your friends 'well jel'!

If you're looking for the cheaper option which has some amazing features, the PS4 is great for you. With free online membership, it has an advantage over the new XBOX, however, the new style of the XBOX is going to blow the market away...

News round the world

Toilet troubles

The Venezuelan government have bought a toilet paper factory following the shortage of the product. The factory now produces and/or imports millions of toilet rolls. Venezuela's Vice President, Jorge Arreaza, tweeted: "Authorities will not permit hoarding of essential commodities, or any faults in the production and distribution process."

Songs for our everyday lives

The song 'Never Back Together' by Taylor Swift shows what it's like to be dumped and then wanted again by a boy or girl friend. Of course, this star doesn't want to be taken back so she rubs it in this boy's face. The song was written about Harry Styles when he broke her heart. But her heartbreak was worth it, as she won the MTV 'female award' where she got her own back.

Top song...

Katy Perry has made it to the top of the hits with her amazing song- Roar! This song is a huge hit all over the world. This catchy tune is great to listen to and pushes you through your day.
